

How to Play Crown the King

Materials

- pool noodles, cut in half so they are shorter (one half noodle per player)
- paper crowns (one per player)

Instructions

1. Give each player a crown and half a pool noodle. They should put the crowns on their heads, loosely enough that they can be knocked off.
2. Remind the players that this is a game and not to hit each other full force with the noodles. It should be more of a brush or a tap.
3. When you say go, players use the noodles to try to get the crowns off of each others heads.
4. Once a player loses his or her crown they are out and cannot "attack" anyone else.
5. Last person with a crown wins.
