

# How to Play Spot the Difference Game

## Materials

- None

## Instructions

1. Divide the group into two teams. Five or six players is a good team size. If your group is large, have several games running simultaneously.
2. Have one team line up across the front of the room so that other team can observe them.
3. Give the observing team one minute to look at the lined up team.
4. The observing team leaves the room.
5. The lined up team can then change ten things about their appearance. These things must be noticeable just by looking at the group.
6. The observing team comes back into the room. They have two minutes to say what is different about the team. They may list up to ten differences. For each one they get correct, they get a point.
7. Switch the teams so the observing team becomes the lined up team and the lined up team becomes the observing team.
8. The team with the most points wins.
