

# How to Play Candy Identity Game

## Supplies

- You will need some candy with similar colors but different flavors. Some suggestions:
  - [Jelly Belly beans](#) (a safe choice)
  - [Bertie Botts Every Flavored Beans](#) (if you want some gross flavors)
  - [Skittles](#) (actually all the same – if that is the point you want to make)
- Containers
- Pencil and paper.

## Instructions

1. Separate the candies by colors or almost similar colors.
2. Give each player a pencil and paper.
3. Put several candies in front of each player.
4. Do not let them smell or taste the candies.
5. Have them write down what they think the candy flavor is.
6. Reveal their answers.
7. Then let them taste the candies and see if they think they were right.
8. Discuss any differences in the answers.
9. Repeat with the remaining colors.
