

How to Play Train Tag

Materials

- none!

Instructions

1. Choose 3 players to be “it”. These are the “engines”
2. The engines try to tag other players. Each time the engine successfully tags someone, they link arms with the last person in the “train”
3. Only the engines may tag. If the train becomes unlinked, they must go to the sidelines and relink before the engine can start tagging again.
4. The game ends when everyone is a member of one of the three trains.
5. The train with the most people wins.
